

## Key Business Driver Impact

### *Example*

The upper right-hand corner is an identified driver. This would be the driver that is pertinent to the success of the organization, department, or team.

The center of the diagram represents the manager's position.

The surrounding circles are those members of your organization, department, or team that are in your direct line of sight. List the position and how that position impacts the driver you have identified. This should answer the question, "How do they directly impact your identified driver?"

## Key Business Driver Impact

*Fill Out Your Own!*

Make as many copies as you need - one for each key business driver. Feel free to fill out additional impact positions beyond the allotted four.
